

GU10 Down Light 5w - Wide Beam Dimmable

GU10 Down Light 5w 100° Beam Angle Glow Rim Dimmable

Product Codes	GU10-5w12cwD
	GU10-5w12wwD
Power (watts)	5.4
Operating voltage	85-265v
Lamp cap	GU10
Expected Life (hours)	30000
Light output (lumens)	440 (ww) / 400 (cw)
Colour temperature	6000k Cool White 2900k Warm White
Colour rendering index	>80
Beam angle (degrees)	100°
Dimming Range	95%
: Incandescent	N/A
Replaces : Halogen	40w
: CFL	13w
Dimensions (w x b x l) wt.	49.8 x 49.8 x 59+2mm (g)

This high quality LED Down Light that replaces a 85-265v halogen or CFL Down Light and uses up to 7 times less electricity than it's retrofit alternative, comes with a 2.5 year warranty.

The Warm White option of this Down Light closely replicates the light of a 40w halogen whereas the Cool White more closely replicates a 13w CFL Down Light

This light uses 12 * SMD 2835 LED chips concealed beneath a translucent lens to give a very even light spread across it's wide 100° beam angle. The outer lens rim glows attractively like a halogen dichroic.

The ultra wide beam angle make this globe ideal for applications like low ceilings, wide light spacing or over counter top environments where even light cover is essential.

It glowing rim and IP rating also make it ideal for bathrooms, eaves, lighting murals and paintings and other decorative lighting.

It has very high light output for it's consumption and compares favourably to our former GU10-6w3wwD.

Please see datasheet GU10-5w14 for the non-dimmable version.

The life expectancy of this globe is 30000 hours and is CE & RoHS compliant.

The most suitable dimmers supplied by ecoLED are DIMSMROT-500 and DIMSMBPT-500
