

## T5 Tube Lights - Silver Edition

230v T5 Tube Lights 2ft and 4ft (Fluorescent Tube Replacement) Neutral White

Product Codes	T52s-8w16nw
	T54s-16w32nw
Power (watts)	T52s-8w16nw = 8w
	T54s-16w32nw = 16w
Operating voltage	85-265v
Lamp cap	T5
Expected Life (hours)	16000
Light output (lumens)	T52s-8w16nw = 640
	T54s-16w32nw = 1280
Colour temperature	5000k Neutral White
Colour rendering index	>80
Beam angle (degrees)	140°
Dimming range	Non-dimmable
Replaces	T52s-8w16nw = 24w FL
	T54s-16w32nw = 45w FL
Dimensions (l x b x h) wt.	595 x 16 x 16mm (g)
	1150 x 19 x 19mm (156g)
	b x a x a

These value for money LED Glass Tube Lights that replace 85-265v conventional fluorescent Glass Tubes and which use up to 3 times less electricity than their retrofit alternatives, come with a 1 year warranty.

The T52s-8w16nw option of this Glass Tube closely replicates the light of a 24w fluorescent whereas the T54s-16w32nw replicates a 45w fluorescent.

These tubes use SMD 5630 Sanan LED chips and a translucent lens to give a very even light spread throughout their 140° beam angle. The refraction of the lens extends the light spill to 240°

The life expectancy of these tubes are 16000 hours and are RoHS compliant.

This tube is powered from both sides as in a traditional magnetic ballast fitting. Any ballast must be bypassed and replaced with an inline fuse & the included safety sticker needs to be placed on the fitting.
