This high quality LED Candle Light that is a replacement for a 80-270v incandencent or CFL Candle and uses up to 10 times less electricity than it's retrofit alternative, comes with a 2 year warranty.

The Warm White option of this Candle closely replicates the light of a 25w incandescent whereas the Cool White more closely replicates a 8w CFL Candle

This bulb uses 6 SMD 6530 Samsung LED chips and a frosted or milky lens to give a very even light spread throughout it's 330° beam angle. The transparent lens option more closely replicates an incandescent bulb with brighter light output. A flame tip design is available.

The life expectancy of this globe is 50000 hours and is CE & RoHS compliant.

A bayonet version is available subject to quotation.
