This high quality LED Candle Light that replaces a 85-265v incandescent or CFL Candle and which uses up to 11 times less electricity than it's retrofit alternative, comes with a 1+ year warranty.

The Warm White option of this Candle closely replicates the light of a 40w incandescent whereas the Cool White more closely replicates a 11w CFL Candle

This bulb uses 4 Filament Sanan LED chips and a clear glass lens to give a very bright light throughout it's 345° beam angle.

The life expectancy of this globe is 30000 hours and is EMC, NRCS & RoHS compliant.

A bayonet, small and large Edison screw versions are available.

Cool white is available as a special order item at this stage only. ETA 4 weeks.

NB! The dimmer used needs to integrate a switch to terminate illumination after minimum dimming.

Compatible dimmers offered by ecoLED are DIMRDROL-120, DIMSMBPT-500 and DIMSMBPL-500

Most existing (common) rotary dimmers work well with this light.
