This high quality LED A60 Globe Light that is a replacement for a 85-265v incandescent or CFL A60 Globe and uses up to 9 times less electricity than it's retrofit alternative, comes with a 2 year warranty.

The Warm White option of this A60 Globe closely replicates the light of a 60w incandescent whereas the Cool White more closely replicates a 18w CFL A60 Globe

This bulb uses 20 SMD 5630 Samsung LED chips and a translucent lens to give a very even light spread throughout it's 180° beam angle.

The life expectancy of this globe is 50000 hours and is CE & RoHS compliant.

This bulb is suitable for many LED compatible dimmer modules, see the ecoLED Dimmer Compatibility Document. A non-dimmable version is available, see the preceding datasheet named B22E27g-7w.
