This high quality LED A60 Globe Light that is a replacement for a 85-265v incandencent or CFL A60 Globe and uses up to 9 times less electricity than it's retrofit alternative, comes with a 2 year warranty.

The Warm White option of this A60 Globe closely replicates the light of a 60w incandescent whereas the Cool White more closely replicates a 20w CFL A60 Globe

This bulb uses 12 SMD 2835 Sanan LED chips and a translucent lens to give a very even light spread throughout it's 220° beam angle.

The life expectancy of this globe is 30000 hours and is NRCS & RoHS compliant.

A dimmable version is available on special order see the following datasheet named B22E27gs-7wD

Currently only B22 (Bayonet) globes are held in stock as the E14E27cs-7w is a better alternative for most other Edison applications offering a wider beam angle and smaller size.
