

## Dimmer Modules - Rotary

Leading and Trailing Edge Rotary Dimmers

Product Codes	DIMROCR-230v150
	DIMSMROT-500
	DIMRDROL-120
Dimmer Load Maximum	DIMROCR-230v150 = 150w
	DIMSMROT-500 = 500w
	DIMRDROL-120 = 120w
Dimmer Type	Leading Edge
Consumption	Negligible
Expected Life (hours)	50000
Dimmer Load Minimum	DIMROCR-230v150 = 6w
	DIMSMROT-500 = 12w
	DIMRDROL-120 = 6w
DIMROCR-230v150	2 wire
DIMSMROT-500	Mosfet 2 wire
DIMRDROL-120	IC 2 wire
Dimensions	100mm x 100mm box or to fit 2 in a 4x2 box

These dimmers have been specifically designed for use with ecoLED dimmable LED's.

They are available in leading or trailing edge modules. They are suitable for loads from 6w to 500w.

These dimmer modules fit into any 4 x 2 box and include an on/off switch (Switched POT)

The life expectancy of these dimmers are over 50000 hrs.
