This high quality LED PL 180° Light that is a replacement for a 80-270v incandescent or CFL PL 180° light and uses up to 9 times less electricity than it's retrofit alternative, comes with a 2 year warranty.

The Warm White option of this PL 180° closely replicates the light of a 50w incandescent whereas the Cool White more closely replicates a 13w CFL PL 180°

This bulb uses 8 SMD 5630 Samsung LED chips and a translucent lens to give a very even light spread throughout it's 180° beam angle. The lens rotates so that you can turn and aim the light even after it has seated properly.

The life expectancy of this globe is 50000 hours and is CE & RoHS compliant.
