This high quality LED Down Light that is a replacement for a 100-240v halogen or CFL Down Light and uses up to 8 times less electricity than it's retrofit alternative, comes with a 2 year warranty.

The Warm White option of this Down Light closely replicates the light of a 35w halogen whereas the Cool White more closely replicates a 11w CFL Down Light

This bulb uses 8 * SMD 2835 Sanan LED chips and a reflector with a partial diffuser lens to give an even light spread throughout it's 90° beam angle. It is great for low ceilings and over counter tops.

The NEW reduced length base now allows this cost effective versatile globe to be used in standard length GU10 halogen fittings and other restricted length environments without adjustment or modification.

The life expectancy of this globe is 30000 hours and is NRCS & RoHS compliant.

A 12v version of this globe is available, see Datasheet MR16s-4.5w9
